

Christ's revolutionary principle of advancing
the common people instead of the patrician
class only — from the ranks of the
poor have sprung — great leaders
from Moses to Abraham Lincoln —
great poets — David to Burns
great ministers — Watts, Stevenson
in peasants' cottages lived Correggio, Caravaggio,
and Millet.

Of scientists — Newton & Ferguson & Lusk
& others who came from the school
of adversity.

Supremacy of Christ over of God.
Our theological museums full of
stone implements, axes, arrowheads, rude
river clubs, strange carvings & the like but
over & above stands supreme Christ's
Conception of God! — Our Father &
we His children created in His
image.
